

PAUL TIPTON

**BDS, MSC, DGGP SPECIALIST IN PROSTHODONTICS
EXPERT WITNESS**

Hi, I'm Paul Tipton and one of the many hats that I wear is that of an expert witness. My qualifications, expertise and many years of dentistry experience place me in a unique position to offer this service in the dentolegal arena. I strive to deliver expert witness advice as a leading specialist in the field of dentistry in a timely, professional and concise manner. I particularly enjoy the forensic part of piecing a case together bit by bit to discover what has really happened. I also like being part of a legal team and working with solicitors and barristers.

In addition to being a Specialist in Prosthodontics since 1999 I have spent the past 20 years in general practice, so I suitably informed to look at aspects of specialist and general practice in legal cases.

In my role as a lecturer worldwide I have to keep up to date with all aspects of dental science which helps when I'm doing a report which relies on current scientific literature. I also read approximately 10 journals per month on all aspects of dentistry.

As an expert witness, my commitment to my clients is to issue concise, accurate and clear reports to assist the courts with their decisions and to ensure communication is paramount throughout the process.

If you would like to contact me regarding work as an expert witness, please do so via my information below

Regards

Paul

This patient's teeth had to be removed due to periodontal disease and were replaced by bone grafts, dental implants and bridges. The lower teeth were restored by a combination of implants, crowns and bridges

About me

I gained a Master's Degree after two years' study at the Eastman Dental Hospital and London University graduating with an MSc in Conservative Dentistry. The following year I began teaching the new MSc in Restorative Dentistry at Manchester University and now have my own Restorative, Cosmetic and Implant courses, which I run from my Tipton Training Academies in Leeds, Manchester, London and Liverpool. I am a founding member of the Academy of Expert Witnesses, a member of the British Academy of Experts, the Expert Witness Institute, the Personal Injury Lawyers and Fellow of the Royal Society of Medicine.

In 1992 I was awarded the DGD from the Royal College of Surgeons and was appointed a member of the BDA Independent Practice Committee. In 1999 I achieved Specialist status in Prosthodontics from the General Dental Council.

I lecture regularly at home and abroad and my renowned one-year Restorative and Cosmetic Dentistry and Implantology courses have attracted over 2500 dentists who have graduated in the past 20 years. Over this time I have represented many patients as their dental expert witness. Additionally, I am on the editorial board of Private Dentistry magazine and Restorative & Aesthetic Practice and was a founding member of the British Academy of Aesthetic Dentistry and the British Academy of Cosmetic Dentistry. I am currently President of the British Academy of Restorative Dentistry (BARD) and I have been recognised in the Top 10 most influential people in UK dentistry for the last five years (Dentistry Magazine).
